

**“Building stronger, smarter young humans through academics, athletics, and life lessons.”**

Tim Wrightman was a member of the **“Greatest Team in Football History”** ... The 1985 Chicago Bears.

He now runs **The Tim Wrightman Foundation**. The Foundation hosts events for young athletes, allowing them to participate in a great day of football activity and an interactive chalk talk with Tim (and other professional athletes and business leaders!). Tim (and the Foundation) are dedicated to promoting self-esteem and greater personal confidence within children.

His trademarked H E A R T process is taught and reinforced during these events.

Wrightman demonstrated leadership and success traits as early as his college years: He is currently the **last** person to be recognized as a UCLA *Academic All-American* and a *Football All-American* in the same year.

With a rich history as spokesperson for **Big Brothers & Sisters**, **the National Collegiate Scouting Association** as well as being a charter member of the **Michael Josephson Institute of Ethics, Character Counts All-Star Team**, Tim is dedicated to serving youth.

The Tim Wrightman Foundation offers unique experiences. Once children arrive at the **Lazy Bear Ranch in Weiser, Idaho** they start a day of football activities on the H.W. Harris Football Field, followed by lunch.

After lunch, players will be treated to an informative pep-talk about character, integrity, trustworthiness and what it really takes to succeed in athletics - and in life.

*Studies show that children who participate in sports have better grades, more positive interactions with adults, stronger relationships with their peers, and more achievements overall. The Tim Wrightman Foundation hopes to influence and foster these characteristic in young athletes.*

**The Tim Wrightman Foundation, a 501 (c) (3) Charitable organization founded by former Chicago Bear Super Bowl XX Champion, Tim Wrightman, focuses on making the world a better place by helping children develop life skills. We focus on:**

- *Teamwork*
- *Decision making*
- *Goal setting*
- *Time management*
